Notice of Allowability	10/774,422	LAUBENDER ET AI	·
	Examiner	Art Unit	
	Dr. Kelechi C. Egwim	1713	
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.			
1. This communication is responsive to the filing 05/04/2005.			
2. The allowed claim(s) is/are <u>12-33</u> .			
3. The drawings filed on are accepted by the Examiner.			
 4.			
7. DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.			
 Attachment(s) 1. ☑ Notice of References Cited (PTO-892) 2. ☐ Notice of Draftperson's Patent Drawing Review (PTO-948) 3. ☐ Information Disclosure Statements (PTO-1449 or PTO/SB/06 Paper No./Mail Date	5. ☐ Notice of Informal P 6. ☐ Interview Summary Paper No./Mail Dat 8), 7. ☒ Examiner's Amendn 8. ☒ Examiner's Stateme 9. ☐ Other	(PTO-413), e nent/Comment	r r

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS

In claim 25, line 6, after "amine containing", delete "at the" and substitute thereof —at least one--.

2. The following is an examiner's statement of reasons for allowance: Prior art such as Urig et al. (USPN 4,623,462) teach methods of treating filter material with aqueous polymer dispersions. However, there is no teaching of resinating the filter material with an aqueous polymer dispersion comprising a polymer obtained by free-radical emulsion polymerization in the presence of a polymer comprising polymerized units of from 50 to 99.5% by weight of ethylenically unsaturated carboxylic acids and from 0.5 to 50% by weight of ethylenically unsaturated hydroxyl group containing amine carboxylic ester compounds, and subsequently curing the resinated filter material, as defined in independent claim 12.

Prior art such as Dreher et al. (USPN 6,841,608) teach binders comprising aqueous polymer dispersions comprising polymers obtainable by free-radical emulsion polymerization in the presence of a polymer synthesized from 50 to 99.5% by weight of

Application/Control Number: 10/774,422

Art Unit: 1713

an acid and from 0.5 to 50% by weight of a compound selected from esters with an amine having a hydroxyl group. However, there is no teach of treating filter materials with the aqueous dispersion and there is noting to suggest that such dispersions would be beneficial in treating/resinating filter material, consistent with the process defined in claim 12.

Since none of the prior art was found to teach of sufficiently suggest the claimed filter treatment process, claims 12-31 and 33 are allowed. Also, the prior art failed to teach the resinated, cured filter material of claim 32, prepared from the process of claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Kelechi C. Egwim whose telephone number is (571) 272-1099. The examiner can normally be reached on M-T (7:30-6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
